**Re Telegraph Revenue Golden and Windermere.**

AUDIT OFFICE OTTAWA, August 11, 1913.

SIR,—The return for February has not been furnished. A deposit came to account for \$143.27, but nothing to indicate if any part of it was on account of Canadian Pacific Railway Telegraph.

The return for March has been received amounting to \$384.54 and a deposit has come to account for like amount. Nothing has been accounted for as due Canadian Pacific Railway Telegraph.

On this return there is a note stating that returns for Golden and Windermere for February and March are missing and will follow later.

Seemingly the accounts at these offices are in a very unsatisfactory condition. What action has been taken in reference thereto?

I am Sir, your obedient servant,  
JOHN GORMAN, *for A.G.*

The Deputy Minister, Public Works.

PUBLIC WORKS DEPT., OTTAWA, August 18, 1913.

SIR,—Referring to your letter of August 11, I enclose copies of the following correspondence with regard to the unsatisfactory condition of the accounts of the Golden and Windermere Telegraph Offices:—

P. G. Burgess' memorandum July 24, 1913.

Letter from General Superintendent of Telegraph.

Service to Superintendent at Victoria, B.C., July 24, 1913.

Letter from General Superintendent of Telegraph. Service to Agent Telegraph Government Service at Golden, B.C. July 24, 1913.

Memorandum from General Superintendent of Telegraph Service, August 14, 1913.

I am sir, your obedient servant,  
R. C. DESROCHERS,

The Auditor General.

*Secretary.*

AUDIT OFFICE, OTTAWA, October 31, 1913.

SIR,—Referring to your letter of August 18, I have to inquire if the accounts at the above office have been put into shape.

For the current year the returns for April and May are all that have yet reached this office. Seemingly the deposits made are only for the amounts accruing to the Government.

Deposits have been made in August and September, presumably for June and July.

The amount deducted by the Canadian Pacific Railway Telegraph Service during 1912-13 was \$926.45, and the amount accounted for by agent only \$727.55.

There does not appear to have been any amount accounted for as due to Canadian Pacific Railway Telegraph for the current year.

This state of affairs is most unsatisfactory.

I am, sir, your obedient servant,  
The Deputy Minister of Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, November 11, 1913.

SIR,—In reply to your letter of 31st ult., I beg to say that Mr. P. G. Burgess of the Telegraphs Branch has just returned from a tour of inspection of this line, and as a result of his visit the statements and receipts to the end of September are now in hand and will be forwarded to the Audit Office within a few days.

Referring to the last two paragraphs of your letter *re* amount deducted by Canadian Pacific Railway Company's Telegraph for years 1912-13, this has now been accounted for together with the arrears for the present fiscal year. That there does not appear to have been any amount accounted for as due the C.P. Railway Co.'s Telegraph for the current year is due to the Agent at Golden not reporting balances, due to interchange of business with the C.P.R. at that point, for February, 1913, and subsequent months. He has now acknowledged and accounted for all outstandings to the end of September last.

I am, sir, your obedient servant,

J. B. HUNTER,  
*Deputy Minister.*

The Auditor General.

AUDIT OFFICE, OTTAWA, March 8, 1913.

***Re* Telegraph Revenue Yukon.**

Sir,—As I have previously written you there are differences between the amounts accounted for by the Telegraph Agents and the amounts deducted by the Canadian Pacific Railway Telegraph Co.

For the eight months of the current year the Can. Pac. Ry. Tel. Co. have deducted \$172.05 more than has been accounted for by the Agent at Golden.

For the same period the company deducted \$151.65 more than has been accounted for by Agent at Kamloops.

The details are as follows:—

	GOLDEN.		KAMLOOPS.	
	Accounted for by Agent.	Deducted by Can. Pac. Ry.	Accounted for by Agents.	Deducted by Can. Pac. Ry.
April.....	78 40	72 84	338 27	354 21
May.....	90 63	104 60	332 34	483 83
June.....	86 73	120 15	379 00	370 64
July.....	121 76	121 08	379 67	379 82
August.....	62 74	64 66	400 97	425 67
Sept.....	54 24	54 75	426 06	397 22
Oct.....		51 87	369 22	365 79
Nov.....		77 10	441 70	441 70
	494 50	667 05	3,067 23	3,218 88

The differences at Golden are principally in May and June, and nothing is accounted for by Agent for October and November.

The difference at Kamloops is largely for May.

Your Superintendent at Vancouver, who has control of the Yukon lines should inquire into and adjust these differences.

I am, sir, your obedient servant,

J. FRASER, A.G.

The Deputy Minister, Public Works.

---

PUBLIC WORKS DEPT., OTTAWA, March 28, 1913.

SIR,—With further reference to your letter of March 8, I enclose copy of a memorandum dated March 17, from the Accountant of the Telegraph Service Branch, from which you will see that the differences between the amounts accounted for by the Telegraph Agents and the amounts deducted by the Canadian Pacific Railway Company's Telegraph Department, are in the way of being adjusted. I also send you copy of a specimen letter addressed to the District Superintendents of the Government Telegraph Service, impressing upon them the necessity for the agents at transferpoints, making proper adjustment with each other

I am, sir, your obedient servant,

R. C. DESROCHERS,

*Secretary.*

The Auditor General.

---

AUDIT OFFICE, OTTAWA, November, 22, 1912.

**Re Rents at Ottawa.**

SIR,—The collections for the six months to September 30 have come to account.

Comparing these collections, with the lists of tenants furnished by your collector, Mr. Smith, the following have not paid any rent.

In addition to these tenants who have paid no rent, there seem to be several who are in arrears.

Your attention is requested.

I am, sir, your obedient servant,

J. FRASER, A.G.

The Deputy Minister of Public Works.

SESSIONAL PAPER No. 1

PUBLIC WORKS DEPT., OTTAWA, November 25, 1912.

SIR,—I am in receipt of your letter of the 22nd instant, in regard to rents of Wellington Street properties. In cases where owners are residing in the premises, a great many of them have preferred to leave the payment of rent to be settled at the time the purchase money is paid over to them, and as it can be taken as a setoff against the interest accrued, the department has no objection.

As to the others, I shall have the matter taken up immediately by the Collector of Revenue with the rental agents.

Yours truly,

J. B. HUNTER,  
*Deputy Minister.*

Auditor General.

PUBLIC WORKS DEPT., OTTAWA, December 3, 1912.

SIR,—With further reference to my letter of the 25th ultimo, I now beg to send you copy of statement prepared by the Collector of Revenue from which you will see that, outside of the owners who will be charged with rental when their properties are paid for, the rentals of other tenants are well up.

I am, sir, your obedient servant,

J. B. HUNTER,  
*Deputy Minister.*

The Auditor General.

## ORDER IN COUNCIL, AUGUST 25, 1913.

## RAILWAYS AND CANALS:—

On a Memorandum, dated August 22, 1913, from the Minister of Railways and Canals, representing that in connection with the works of the Trent Canal construction, it became necessary to remove a certain dam, known as Stevens dam, that had been constructed across the river Trent at the village of Campbellford, to be replaced by a new dam at a point about half a mile below; the privilege of erecting and maintaining the said dam having been conveyed through a license, by Letters Patent, under the Great Seal, dated the 9th of December, 1869, granted to the Honourable James Cockburn, *et al*, on receipt of which license the property adjoining and below the dam was divided by the license into lots on each side of the river, and disposed of to several important industrial and factory interests, who derived power direct through the water available at the dam.

The Minister observes that on the advice of the Department of Justice, to the effect that the dam had originally been built without authority, but had been allowed to remain, under license from the Dominion Government; that it was revocable at will, and that, by its terms, the licensees were expressly precluded from setting up any claims under it, an Order in Council was passed on the 12th August, 1911, authorizing the revoking and termination of the said license. Such revocation was duly carried out, and the several parties who were obtaining power through the water at the dam were individually notified of the intention of the department to remove the old dam, and were advised that the department would not be held liable for their supply of power, as to which they have, in some cases, taken the ground that they possess certain rights, of which they can only be deprived by the institution of expropriation proceedings. On these claims, the Department of Justice have further advised that the contention is an arguable one, and that the parties are entitled to have it passed upon by the courts; but from the standpoint of the practicable conduct of litigation it would appear preferable to leave them to their remedy by Petition of Right, rather than to expropriate the property.

That one of the claimants in the matter, the Trent Valley Woollen Manufacturing Company, Limited, were asked to furnish full information showing their legal rights to take water from the old dam, and upon such information being furnished it was submitted to the Department of Justice, who advised that they could add little to the opinions already given by them (above referred to); that the Crown appears never to have parted with its rights in the water-power in question, and the property owners on either bank appear to possess no greater rights than those of riparian proprietors. They state that, so far as legal considerations govern, this department need not treat with the said company on any different basis than if they were applying for the first time to utilize power; that this does not preclude the department from making such reasonable arrangements as it may deem expedient for a continuation of a supply of power to the company in view of its long-established works at this point.

The Minister has had the matter under personal consideration, with certain of these parties, and in view of the circumstances, the importance of the industrial interests involved, and the advisability, if possible, of avoiding litigation, arrived, subject to the approval of Your Excellency in Council, at an arrangement with the Trent Valley Woollen Manufacturing Company, Limited, by which the Government shall supply and deliver, or procure and supply and deliver, to that company, its successors and assigns, in perpetuity, 350 horse-powers of electrical energy, and pay to the company the cost of purchasing and installing in their factory at Campbellford the electrical and mechanical

## SESSIONAL PAPER No. 1

apparatus and appliances necessary or convenient for the operation of the machinery of the said factory to the same extent that such machinery was operated by water-power derived from the dam in question.

The Minister further observes that in consideration of the conveyance of certain lands at Stephen's Mill site, required for Dam No. 1, Trent canal, a lease, dated the 8th of July, 1909, was granted to John G. G. Kerry, and subsequently assigned by him to the Seymour Power and Electric Company, Limited, of all the surplus water at that point, such lease to be for a term of 21 years only, at a rental of Two Dollars per horse-power (except as to one-third of such power, then vested in the lessee), and by the 11th clause of this lease it was provided that should, at any time during the existence of this lease, the lessor be called upon to make good any surplus water-power in which any party or parties, other than the lessee, may prove to have valid interests, at Campbellford, the lessee shall sell to the lessor, at actual cost, a sufficient quantity of water-power to enable the lessor to supply such party or parties.

That the change in the company's machinery from hydraulic to electric power has been made at a cost of \$22,415.29. The capacity of this installation, however, is greater than that which would have been sufficient to precisely meet the requirements of the case. The extra cost on this account has been figured out at \$937.43, making the amount payable under the proposed agreement with them, \$21,477.86. The company has furnished full information as to the cost of the said new installation, and the electrical engineer of the department states, in this connection, as follows:—

"The apparatus enumerated in the accounts has been installed and "the work referred to in the vouchers has been carried out. The prices "for apparatus and work are, in my opinion, reasonable."

The Minister recommends that authority be given for entry into an agreement with the Trent Valley Woollen Manufacturing Company, Limited, to supply to them, their successors and assigns, in perpetuity, 350 horse-powers of electrical energy, of 746 watts each, measured on the low tension side of the transformers, to be furnished in the form of 3 phase alternating current, having a normal frequency of 60 cycles per second, at a pressure of approximately 2,200 volts, and to pay them the said sum of \$21,477.86, being the cost of the purchases and installation of the electrical and mechanical apparatus and appliances necessary or convenient to be installed for the operation of the machinery of the said factory to the same extent that such machinery was operated by water-power derived from the dam at Campbellford.

Further, that he be authorized to enter into an agreement with the Seymour Power and Electrical Company, Limited, for the furnishing, under their said lease of the 8th July, 1909, of the electrical energy so to be supplied to the Trent Valley Woollen Manufacturing Company, to the extent, not exceeding the equivalent of 350 horse-powers of electrical energy of 746 watts each, payment to be made therefor at the actual cost to the company of production, but not to exceed \$12 per horse-power per annum, such actual cost to be decided after inspection by the department's officers of the books of the company and as may be certified by the Chief Engineer of the Department of Railways and Canals; the company, further, to be paid an amount equivalent to interest at 6 per cent on the cost to the company of the transmission line from their power-house to the woollen mills, and on the cost of the meter or meters for measuring the power; the department, further, to pay for such physical repairs to the line as may, from time to time be, in the opinion of the Chief Engineer of the Department of Railways and Canals, necessary; also for loss of power in the line between the power-house and the mills.

The Committee submit the same for approval.

RODOLPHE BOUDREAU, C.P.C.

AUDIT OFFICE, OTTAWA, August 29, 1913.

SIR,—I have received a copy of an Order in Council dated 25th August, 1913, in which authority is given to the Minister of Railways and Canals to pay the Trent Valley Woollen Manufacturing Company \$21,477.86, being the cost of electrical apparatus, etc., for operating their plant by electrical power instead of hydraulic, and also to enter into an agreement to supply them 350 horse-power of electrical energy in perpetuity.

It would appear from the opinion of the Department of Justice that the Dominion Government is under no legal obligation to make this payment or enter into this agreement; and I have therefore to request that you will not use your Letter of Credit for the purpose of making this payment, or any payment to the Seymour Power and Electric Company for supplying the electrical energy, until Parliament has authorized the same.

I am, sir, your obedient servant,

J. FRASER, A.G.

The Deputy Minister, Railways and Canals.

RAILWAYS AND CANALS DEPT., OTTAWA, November 17, 1913.

DEAR SIR,—I beg to acknowledge receipt of your letter of the 29th August last, relative to the payment under the authority of an Order in Council dated 25th August, 1913, of an amount of \$21,477.86 to the Trent Valley Woollen Manufacturing Co., being the cost of electrical apparatus, etc., for operating their plant by electrical power instead of hydraulic; and, also, to the payment to the Seymour Power and Electric Company for supplying electric energy for operating the first-mentioned company's mill at Campbellford.

I am informed by the Financial Comptroller of the department that he talked this matter over with the Deputy Minister of Justice and yourself, and that it is now understood that there is adequate authority for the payment of the above account. The department is now disposed to make the payment out of the Departmental Letter of Credit, but before doing so we should like to be advised that you concur in the said payment.

Yours truly,

A. W. CAMPBELL, *D'y Min. R. C.*

The Auditor General.

AUDIT OFFICE, OTTAWA, November 20, 1913.

SIR,—I have to acknowledge receipt of your letter of the 17th inst. in reference to the payment of \$21,477.86 to the Trent Valley Woollen Manufacturing Co., payment to the Seymour Power and Electric Company for supplying electric energy to the above-mentioned company, and also a discussion with the Deputy Minister of Justice as to whether the department had the necessary authority to make the above payments.

In my letter of the 29th of August last I asked you to refrain from making these payments until parliamentary authority was obtained, as the Government had no authority to pay the company for the installation of an electric plant

## SESSIONAL PAPER No. 1

in its own mill, nor to pay the power company for electric energy supplied for the operation of the company's mill, without having first obtained parliamentary authority for so doing.

In the discussion with the Deputy Minister of Justice a new phase of the situation was presented. It was suggested that while there might not be a legal claim for compensation it was possible that, in the event of the company taking their case to the courts, an award might be given in their favour, or even if they were not successful, the costs of litigation might be such as to warrant the Government making a settlement as a matter of expediency, and the Deputy Minister of Justice was of the opinion that the Government had the power to make such a settlement on the ground that it was in the public interest.

Admitting this, what position should this office take in the matter? It appears to me that if, in my opinion, the amount to be paid is excessive or extravagant, or in the words of the Audit Act, the price is not fair and just, I am to refuse payment; and it is then open to an appeal to the Treasury Board where my opinion can be overruled, or the department can have an amount placed in the Estimates for this purpose and give Parliament an opportunity to sanction the settlement or otherwise as it may deem fit.

Now, what are the terms of the proposed settlement? What does the Government consider the company's claim to amount to? The company held a license from the Government that was revocable at will and in the event of revocation the company was precluded from setting up any claims under it. The Government authorized the revoking and termination of the license, the revocation was duly carried out, and the company was notified that the department would not be held liable for their supply of power. The company takes the ground that they possess certain rights; the Department of Justice advises that the contention is an arguable one, and that the company is entitled to have it passed upon by the courts, that the Crown appears never to have parted with its rights in the water-power question, and the property owners on either bank appear to possess no greater rights than those of riparian proprietors. They state that so far as legal considerations govern, the department need not treat with the company on any different basis than if they were applying for the first time to utilize power. What, then, is the company's claim worth?

What does the Government propose to pay as a matter of expediency? The company has discarded what was probably an old, and to some extent worn-out water-power installation and has replaced it by a new and up-to-date electrical equipment which belongs absolutely to the company and which cost \$21,477.86. The Government proposes to pay the whole cost of this installation. The company requires electric energy to operate this plant; the Government proposes to supply 350 horse-power of electrical energy in perpetuity at a possible cost of \$12 per horse-power per annum, or \$4,200 which, capitalized at 4 per cent, would amount to \$105,000, and in addition the equivalent of 6 per cent interest on the cost of a transmission line from the power-house to the woollen mills and on the cost of meters for measuring the power, for such physical repairs to the line as may from time to time be necessary, also for loss of power in the line between the power-house and the mills. No amounts are stated for these last four items.

Briefly stated, the proposal is to pay the company \$21,477.86, plus \$105,000, plus the last four items, for something, to which, in the opinion of the Department of Justice, the company has no legal claim.

I might also point out that so far as the Order in Council authorizing the Minister of Railways and Canals to enter into this agreement is concerned, no provision is made for extinguishing such claims as the company may have.

4 GEORGE V., A. 1914

Under all these circumstances I think I am justified in coming to the conclusion that the sum proposed to be paid is excessive, and therefore I am precluded by the Consolidated Revenue and Audit Act from authorizing payment of the same.

This action is taken under sections 41, 42 and 45 of the Consolidated Revenue and Audit Act.

I am, sir, your obedient servant,

J. FRASER, A.G.

The Deputy Minister, Railways and Canals.

RAILWAYS AND CANALS DEPT., OTTAWA, November 24th, 1913.

DEAR SIR,—I beg to acknowledge receipt of your favour of the 20th instant, in regard to the arrangements authorized by Order-in-Council in connection with the Trent Valley Woollen Manufacturing Company and the Seymour Power & Electric Company.

I note the objections you raise to the settlement proposed, and have to state that the matter will be brought to the attention of the Minister.

Yours truly,

A. W. CAMPBELL, *D'y Min. R. C.*

The Auditor General.

AUDIT OFFICE, OTTAWA, August 6, 1912.

SIR,—Please let me know why there were no receipts, through the Bank of Montreal, London, Eng., for ticket sales, during the fiscal year ended March 31 last.

In 1909-10 the sum of \$6,044.80 was received and in 1910-11 only \$384.92.

I am, sir, your obedient servant,

E. D. SUTHERLAND, *for A.G.*

The Comptroller, Intercolonial Railway.

---

MONCTON. N.B., August 10, 1912.

DEAR SIR,—I have to acknowledge receipt of your communication of the 6th inst., asking to be informed why there were no receipts through the Bank of Montreal, London, Eng., for ticket sales, during the fiscal year ended March 31 last.

In reply I beg to state that in the year 1910 the Allan Bros. & Co. commenced to draw orders on Messrs. H. and A. Allan, of Montreal, and since that time the value of any orders which have been honoured by the I.C.R., has been billed against the latter company for settlement, and payment has been made by that firm in Montreal. Only a few orders were made direct on the I.C.R. in 1910, and none in 1911 and 1912.

Yours truly,

S. L. SHANNON, *Comptroller and Treasurer.*

The Auditor General.

AUDIT OFFICE, OTTAWA, July 19, 1912.

SIR,—It is observed that you credited, during the fiscal year ended March 31 last, the deductions from employees on the various canals for house rents to the Appropriations for Staff and Repairs and Statistical Officers.

Please let me know why these deductions were not credited to Canals Revenue—Hydraulic and other Rents, instead of supplementing the appropriations thereby.

I am, sir, your obedient servant,

E. D. SUTHERLAND, *for A.G.*

The Deputy Minister of Railways and Canals.

SESSIONAL PAPER No. 1

DEPT. OF RAILWAYS AND CANALS, OTTAWA, July 23, 1912.

SIR,—I have the honour to acknowledge the receipt of your communication of the 19th instant, advising that you observe that during the fiscal year ended on the 31st of March last this department credited the deductions from employees on the various canals for house rents to the Appropriations for Staff and Repairs and Statistical Officers, and you ask why the deductions were not credited to Canals Revenue—Hydraulic and other Rents, instead of supplementing the appropriations thereby.

In reply, I have to say that the system of deducting amounts due for rental of Government houses was only put into force during last midsummer, and it had been intended to transfer the total amount from the Revenue Appropriation to Canals Revenue at the end of the year. In closing the books for the fiscal year, the matter was overlooked. Instructions have now, however, been issued to credit all such amounts deducted during the present year, at once, to Canals Revenue.

I am, sir, your obedient servant,

L. K. JONES,  
*Assistant Deputy Minister and Secretary.*

The Auditor General.

AUDIT OFFICE, OTTAWA, October 2nd., 1913.

*Re Interest on Advances under Railway Subsidies Acts.*

SIR,—During the year 1911-12 the following amounts came to account from your Department for Mail service from the Railways stated:—

Alberta Railway and Irrigation Company.....	\$	882 66
Canadian Pacific Railway:—		
Antler and West of Arcola.....		624 00
Burketon and Lindsay.....		70 20
Hull and Aylmer.....		115 13
Kingsburg and Windsor Mills.....		46 80
Kirkella and 136 miles East.....		1,697 28
Lardo and Girard.....		46 80
Maniwaki Junction.....		21 76
Winnipeg and Gimli.....		674 70

Nothing has come to account during 1912-13 from any of these Railways. Please explain why.

I am, Sir, your obedient servant,

The Deputy Postmaster General.

J. FRASER, A.G.

## CENSUS AND STATISTICS: UNANSWERED LETTERS.

OTTAWA, MARCH 31, 1913.

SIR,—I find that several letters addressed to you some time ago in connection with expenditure incurred in taking the census of 1911 have not been answered. I shall be obliged if you will cause the information asked for therein to be sent me at your early convenience, as the vouchers in support of the expenditure made during the fiscal year terminating to-day are now under examination.

In the letters referred to your attention was called to some over-payments, and it is necessary I should know what action has been taken in each case. There are three letters under date August 17, 1912, one August 19, 1912, two August 20, 1912 and one January 11, 1913.

I am, sir, your obedient servant,

J. FRASER, A.G.

G. F. O'HALLORAN, Esq.,  
Deputy Minister of Agriculture.
